Windows Boot Manager

Windows failed to start. A recent hardware or software change might be the cause. To fix the problem:

1. Insert your Windows installation disc and restart your computer.
2. Choose your language settings, and then click "Next."
3. Click "Repair your computer."

If you do not have this disc, contact your system administrator or computer manufacturer for assistance.

File: \WINDOWS\system32\drivers\storvsc.sys

Status: 0xc0000359

Info: Windows failed to load because a critical system driver is missing, or corrupt.
